BALAJI
STONES**
SINCE 1994

Crafted By Time,
Chiseled By Us

How It All Started

In 1994, our journey commenced with Shree Balaji Marble and Granite in Rajasthan. As our business evolved, we established our manufacturing unit in 2004. In 6 months, we made the unit operational. As the market expanded, we also upgraded our technology and machinery. In 2009, we diversified into ceramics, establishing "Spenza Ceramics Pvt. Ltd." Today, we are one of the largest granite manufacturers in the region. Our state-of-the-art machines help us in providing our clients with exquisite finishes.

Our Aim

We aim to provide quality stones and marbles with various stone patterns and designs. We want to export our stones globally through an excellent distribution network.

Our Values

Our company values our client's trust the most. We emphasise maintaining a good relationship with our customers through on-time delivery of our quality products.

Nature Stones

This is an exclusive and timeless creation with different textures. The nature stones will offer unmatched luxury and a touch of elegance. The versatile designs and patterns will provide your architect with ample creativity. With exquisite finishes, these innovative products will add the required glamour to any area. The stones formed over centuries have been exclusively handpicked to match the aesthetic requirements of our clients. These stones carve out a particular niche that marks the luxury and richness they portray.
